

HDFC Bank - Annual Report FY2024-25

Executive Overview:

HDFC Bank delivered resilient operational performance in FY2025. Total deposits grew by 16.5% year-on-year, driven by robust retail franchise expansion. Capital Adequacy Ratio (CAR) was maintained at 18.8%.

1. Credit Risk Management (FY2025):

Credit risk remained well-contained across wholesale and retail portfolios. In FY2025, the Gross Non-Performing Assets (GNPA) stood at 1.33%, while Net NPA was 0.38%. Provision Coverage Ratio (PCR) was maintained at 74.2%.

2. Liquidity and Market Risk (FY2025):

Liquidity Coverage Ratio (LCR) averaged 112% for the fiscal year, well above the regulatory threshold of 100%. Net Interest Margin (NIM) was 3.55% as borrowing costs moderated.
